PROJECTS

- **Sale**

  Customized sales orders with dynamic product quotations, stock availability checks, and security warnings for high prices, totals, and step-by-step sales approvals.

- **Purchase**

  Built a purchase request and approval process with multi-level authorization and alerts for budget compliance, improving transparency and reducing errors.

- **Inventory**

  Implemented secure inter-company warehouse transfers within the same Odoo system, with role-based approvals and access controls.

- **Account**

  Customized full accounting cycle: invoices, journals, and checks (issue, receive, endorse, bank settlement, customer-to-customer transfers).

- **Attendance**

  Modified the Odoo system to handle evening shifts, including policies for delays, overtime, and absences

- **Payroll**

  Built payroll system for 500+ employees (overtime, deductions, allocations) integrated with Attendance & Timesheets.

- **Portal**

  - HR Leave , Loan , Time Work , Attendance , Project and Task
  - Improved user experience by creating intuitive and responsive portal interfaces.

- **Contracting**

  Linked contracts with projects, managed progress billing, and tracked resource usage across subcontracts and main contracts.
